### DOOR EDGE GUARDS

Help protect the vehicle's vertical door edges from dings and paint chips with exclusive, body color-matched Genuine Toyota Door Edge Guards. Offering affordable protection, these Door Edge Guards help preserve the vehicle's like-new appearance while seamlessly blending into its sleek, streamlined styling. Constructed from roll-formed 400 series stainless steel, these Door Edge Guards are encapsulated in body color-matched Thermoplastic Compound (TPC) to help prevent any metal-to-metal contact between the guard and the door edge. Engineered for easy installation with no surface preparation needed, the Door Edge Guards are custom designed for a perfect fit to car body contours. They employ a compression fit for secure adhesion without the need for chemical adhesives or mechanical fasteners—plus, installation is quick and easy. They can also be removed without consequential damage. Constructed to meet Toyota's rigorous engineering standards, Genuine Toyota Door Edge Guards resist cracking, fading and peeling while helping to maintain your vehicle's appearance and resale value.

### Wheel Locks

Constructed of forged, hardened steel with triple-nickel or zinc plating, Toyota wheel locks provide inexpensive, dependable protection against wheel and tire theft—along with peace-of-mind in knowing wheels and tires are secure. Wheel locks can save vehicle owners the time and expense of replacing their wheels and tires, while also helping protect against additional vehicle damage that can occur during theft. Not to mention protection from being stranded away from home or having to pay out-of-pocket insurance deductibles. Wheel locks are available in kits of four or five (the 5<sup>th</sup> lock is for exterior mounted spares)

### Bluetooth Hands Free

The BLU Logic<sup>®1</sup> hands-free system integrates with the factory audio system to initiate and answer cellular phone calls, enabling cell phone use that is essentially "hands free". Owners can listen to incoming and outgoing cellular calls through the front factory speakers and a small microphone is designed to capture the voices of vehicle occupants. Incoming calls are answered with the push of a button. Outgoing calls are placed by cellular phone dialing and speaking into the fixed microphone provided. The sound level of incoming calls is easily adjusted up or down with simple, clearly identified button functions. **\*This product cannot be installed if vehicle has JBL audio, or navagion.**

*Cargo Net*

Custom-crafted for the vehicle cargo area, the cargo net is designed to hold a variety of everyday items—from groceries to athletic gear—and ensure they don't shift around or tip over. The cargo net features a hammock-style design and durable netting that attaches to defined points in the rear cargo area, making it easily accessible. The cargo net can be installed or detached in seconds, and folds flat for storage when not in use.

### REMOTE START W/ SMART KEY

The VIP Remote Engine Starter allows vehicle owners to start the engine before entering the vehicle—as well as to activate the air conditioner, heater, defroster and defogger functions—so owners can have their vehicle ready and waiting with a comfortable interior temperature. And because it's fully integrated into the vehicle's existing factory security/keyless entry system, there's no need for an additional remote. The remote engine starter is operated by pushing the "lock" button on the keyless entry fob in a quick, three-step sequence: (1) push and release "lock" button; (2) push and release "lock" button again; (3) then push and hold "lock" button for three seconds—and the engine starts. The engine can also be stopped remotely by pushing the "unlock" button once, or by pushing and holding the lock button for two seconds or more.
