Bluetooth Hands Free

The BLU Logic^{®1} hands-free system integrates with the factory audio system to initiate and answer cellular phone calls, enabling cell phone use that is essentially "hands free". Owners can listen to incoming and outgoing cellular calls through the front factory speakers and a small microphone is designed to capture the voices of vehicle occupants. Incoming calls are answered with the push of a button. Outgoing calls are placed by cellular phone dialing and speaking into the fixed microphone provided. The sound level of incoming calls is easily adjusted up or down with simple, clearly identified button functions.

Note:

BLU Logic conflicts with: **1) Audio with JBL is a conflict or 2) Audio with Navigation is a conflict. Please confirm that a knock-out plate is available in the vehicle to mount the switch prior to ordering.** This part number does not conflict accessory satellite radio.

VIP Security System, RS3200 Plus/GBS

The VIP RS3200Plus (Vehicle Intrusion Protection) is a complete vehicle security system with alarm and glass breakage sensor for vehicles that already have keyless entry with remote lock/unlock. When equipped with the VIP RS3200, the vehicle's security system is activated immediately if the glass is broken or if forced entry of a side door (or the trunk) is attempted. Includes a wide range of security and convenience features including: automatic rearming and relocking, door ajar warning, interior light activation, panic alarm, rolling code technology and disabling of the starter.

Note:

This kit can be installed as an RS3200 Plus alarm system or a GBS add on to an existing factory theft deterrent system. It requires vehicle to have immobilizer feature to be installed. Immobilizer is standard on Limited and Sport models and optional on the base model. The GBS applies to both gas and hybrids. GBS add on requires vehicle to have factory theft deterrent system already.

TOW HITCH AND WIRING

Every Genuine Toyota tow hitch features a model-specific design that's precisely engineered to help achieve the vehicle's maximum tow rating. The tow hitch mounts to the frame of the vehicle as part of the complete Toyota towing system and is subject to an uncompromising design, testing and manufacturing process. By the time Toyota puts a towing system on a vehicle, each of its components have undergone extensive analysis and testing in order to ensure its capabilities.

Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment

HIGHLANDER

REMOTE START W/ SMART KEY

The VIP Remote Engine Starter allows vehicle owners to start the engine before entering the vehicle—as well as to activate the air conditioner, heater, defroster and defogger functions—so owners can have their vehicle ready and waiting with a comfortable interior temperature. And because it's fully integrated into the vehicle's existing factory security/keyless entry system, there's no need for an additional remote. The remote engine starter is operated by pushing the "lock" button on the keyless entry fob in a quick, three-step sequence: (1) push and release "lock" button; (2) push and release "lock" button again; (3) then push and hold "lock" button for three seconds—and the engine starts. The engine can also be stopped remotely by pushing the "unlock" button once, or by pushing and holding the lock button for two seconds or more.
